CCTV
Solutions

We Supply | We Install | We Maintain

CCTV installation is an essential security measure to protect residential, commercial, and industrial properties by providing continuous monitoring and recording of activities.

At Taibah Control Devices Tr., we specialize in delivering state-of-the-art CCTV solutions tailored to meet the unique needs of our clients. Our services include the installation of high-definition cameras, night vision systems, PTZ (pan-tilt-zoom) cameras, and cloud-based recording options, ensuring comprehensive coverage and clear imaging for both indoor and outdoor environments.

From small-scale setups to large enterprise installations, our team ensures seamless integration with your existing security systems, such as access control and alarm systems.

Access Control
System

Access Control is a critical component of modern security systems, designed to restrict and manage access to buildings, rooms, or secure areas, ensuring that only authorized individuals can enter.

At Taibah Control Devices Tr., we provide cutting-edge Access Control solutions tailored to the unique needs of residential, commercial, and industrial clients. Our systems utilize advanced technologies such as biometric readers, RFID cards, PIN codes, and facial recognition to deliver seamless, reliable, and secure access management.

These solutions not only enhance security but also streamline operations by eliminating the need for traditional lock-and-key systems.With our expertise, we offer end-to-end services, including system design, installation, maintenance, and upgrades.

Intercom Gate Barrier

At Taibah Control Devices Tr., we provide advanced Intercom and Gate Barrier systems to enhance security and convenience for residential, commercial, and industrial properties. Our intercom systems enable seamless communication between visitors and residents or staff, offering audio and video features for verifying access requests before granting entry. Paired with robust gate barrier solutions, we ensure effective control over vehicle and pedestrian access to your premises, enhancing safety and operational efficiency.

Our services include system design, installation, and maintenance, utilizing the latest technologies such as wireless intercoms, IP-based systems, and automatic gate barriers with RFID or license plate recognition. These solutions are ideal for gated communities, office buildings, warehouses, and parking areas.
